Site Help Summary:

Menu Selection:

The homepage top right triple-line icon selects the links&docs menu.

The homepage top left triple-line icon selects the picture-series menu.

Menu Scrolling Options:

Fast scroll up – screen or mouse swipe up

Fast scroll down – screen or mouse swipe up

Slow scroll up – screen or mouse swipe left

Slow scroll down – screen or mouse swipe right

Picture Scrolling and Panning:

Move highlighted section of scroll bar to pan thru the selected picture series. Before using picture scrolling, it is suggested to first stop auto panning with a single screen click when a picture is centered in the view window. Stop/Start scrolling with a single picture click. Scroll right by panning cursor up. Scroll Left by panning cursor down.

Quick Bar:

The scrolling Quick Bar text links provide quick access to Site-Info, AGA score-entry, AGA handicap-lookup, Thursday Results, and Hot Topics. The user can stop and start the Quick Bar rotation. Clicking on the link text enables display of the page.

Usage Considerations:

- Use of cellphone landscape position is recommended to best view document and picture views. To ensure a proper sized screen, restart the url when changing between cellphone portrait and landscape views.
- The website requires a popular browser that has been updated within the last 4-5 years. If the site does not render properly, it is likely your browser is out-of-date and unable to support this site.
- When exiting from picture or documentation displays select browser back-arrow to return to the homepage.
- Save the url repba.com/?p=crmc to a Chrome bookmark or Safari desktop icon so tedious reentry of the url is not needed.
- Picture Pinching is disabled.
