Usage Considerations:
1. Use cellphone landscape position is recommended to best see document and picture views. To ensure a proper sized screen, restart the url when changing between cellphone portrait and landscape views.
2. The website requires a popular browser that has been updated within the last 4-5 years. If the site does not render properly, it is unlikely your browser is out-of-date and unable to support this site.
3. When exiting from picture or documentation displays select browser back-arrow to re-enable the homepage.
4. Save the url to a Chrome bookmark or Safari desktop icon so tedious entry of the url and its special characters is not needed.
5. Picture Pinching is disabled for all pictures.
