**Coyote Run Golf Course Picture Series:**
[https://repba.com/?p=boss/0098](https://repba.com/?p=boss/0098)

This picture series displays the green area, hundred yards from green, and tee views of the 18 Coyote Run Golf golf course holes. The holes to display are specified by the menu selections. The application displays the golf hole pictures at full height for all sized devices and alleviates the need for users to pinch out a browser image to view full height pictures. It also provides viewing the full width of hole pictures wider than the physical screen, auto slideshow capability, and picture magnification.

**Command Summary**
The following is a **summary of FSPIV user commands**:

- Click the left/right 1/3rd side of the image or hit Backspace/Enter key to move to the **previous/next** picture.
- When motion is stopped, pan **up/down** to move **left/right** to view the picture full width.
- Pan **left/right** to move to the **previous/next** montage image.
- Click the center ⅓rd of screen or spacebar to **stop/start** the slideshow.
- **Pinch** the picture to enable or disable screen magnification, where 1/3rd of the normal picture height is displayed full screen. Use the **left/right** arrow to move horizontally across the magnified picture. Use the **up/down** arrows to move the magnification area.
